MCM Construction selected as general contractor for the Railyards

Several local firms have been selected to construct and manage the 5th Street bridge project that will create access into the downtown Sacramento Railyards, Thomas Enterprises announced Wednesday.

MCM Construction Inc., of North Highlands, has been selected as general contractor. The company specializes in heavy highway and bridge construction and will bring along subcontractors Teichert Construction, Alling Iron Works, Camblin Steel, Angelo Utilities, Norcal Pump & Well Drilling, Rupert Construction Supply, GR Trucking, Pisor Fence, and KM & Co.

Work on the 5th Street bridge is expected to start this month.
